

Freeze

Lyrics: Ann Kathrin Lüthi

This is the end of never
And I have left no stone unturned
I made every endeavor
I put out the fire before it burned

All you want to get is the sweet but not the sour
There is no way for me – there is no way out

Freeze the sea
Crack the ice
And take a dive with me
Heat up the lake
Break the light
You have to still the quake

I ran around in circles
Now you are my only sun
Don't want to find another
'Cause I know there's only one
