

The Place that Time Forgot

By Annakin

You're clinging to your parachute
The fast land craves the lot of you
Your heartbeat stops the rehearsed loop
Your naked knees are giving in
Discomfort burns beneath your skin
Unwell received companion

You can't remember how to stop
Tears and sweat unite to drop
This must be a place that time forgot
You stare into its shallow grin
Discomfort burns beneath your skin
Unwell received companion

This must be the moment I forgot to remember how to stop
I follow you and you follow me with everything that we have got
This must be when we forgot how to stop

Can't get the picture get no gist
Or was there something you have missed
Your tongue is muted by the twist
You need to touch the vibes again
Discomfort burns beneath your skin
Unwell received companion

This must be the moment I forgot to remember how to stop
I follow you and you follow me with everything that we have got
This must be when we forgot how to stop

Mind your brain it's racing sore
This can't be it there must be more
Be careful what you're wishing for
This can't be it there must be more

Fever's crawling up your chin
Discomfort burns beneath your skin
Unwell received companion

This must be the moment I forgot to remember how to stop
I follow you and you follow me with everything that we have got
This must be the moment I forgot to remember how to stop
I follow you and you follow me with everything that we have got
This must be when we forgot how to stop
