

## Time out of Mind

Lyrics by ann kathrin lüthi

You say complete certainty does not exist  
Do you believe I can make up for all I've missed  
Do you believe you always remember a forgotten sound  
I know an assumed lost love can be refound

### Time out of mind

I'm down on my knees I've done everything I could  
So many thoughts no place for them to be put  
I'm tired and restless and I feel haunted  
The sleep conquering me is in my head unwanted

### Time out of mind

You say it's getting out of hand  
It's not quite how it all was planned  
We're falling we're falling  
Embrace the world it's not too late  
It won't happen to us it's not our fate  
We're fine yes we're fine

You say you know when you have to draw the line  
I always thought you are forever mine  
Please hang on because if you go all time's left to find  
A time out of mind  
Please don't leave us behind
