

Turn us on  
Lyrics by ann kathrin lüthi

You've got to give it some time  
You've got to give it a try  
I'll find the remedy  
In me

Isn't it a little too late now to see  
That we should have done it all differently  
They're coming with a little too much pain after me  
But only anger will set them free

You know they can harm you with what they say

Leave your footprints when you go  
Be convincing with your show  
Turn us on  
Turn us on

Definitely maybe they will return one day  
They know what reasons had led them away  
Simplicity will not make them stay  
I'm not simple and they know it and that's okay

When you're in a hidden place rescue will take long
