

Beauty of an Abandoned Place

Your ray of light
Won't reach me on time
There's a universe between us
Between us

Partiality
Paralyses me
We do not believe in the same truth
In the same truth

Sensitivity
Walk alongside me
It is boon and bane at the same time
At the same time

Give me love and give me faith
We're lost in space
We're both there but we're out of phase
Beauty lies in an abandoned place

You're the sun and I am the moon
Your fire will burn out soon
Your light outshines a darker
Star

My heart leaps in the dark
And lights up with a spark
The beauty of an abandoned
Place
