

## **Silenceland**

120 bpm

Reverse every word page by page  
Rehearse forever what to say  
I was the one who  
Wasn't wanted there with you

We must have turned deaf and blind  
And I think we have lost our minds  
To believe our world would not shake  
And one of us would not break

This is where we stand  
This is silenceland  
It is what it is  
I keep playing into your hands  
With everything I am  
It is what it is

We both rise and raise the stakes  
We make the same old mistakes  
Our bleeding hearts won't find  
Something long left behind

Silence  
Silence  
Silence  
Silenceland
