

Taken by You

I shed my last teardrop
In the sky
This place is flashing up
Like Paris to the eye

I am taken by you
I am completely taken by you

You're magnetized
I am pulled to your pole
Are you my ally
Or will you swallow me whole

I am taken by you
I am completely taken by you

I am not ever am i lonely never am i the only one dying to know you
There must be something holy in drawing me in the way only you do

I am taken by you
I am completely taken by you

I shed my last teardrop
